INVESTIGATION SUMMARY

Based on the victim's statement and hybrid AI analysis, this incident has been classified as **UPI_FRAUD** with **98.0% confidence**. The overall risk level has been assessed as **CRITICAL**. Fraud involving Unified Payments Interface (UPI) transactions through deceptive collect requests, fake refunds, malicious payment links, QR-code traps, impersonation, or other social engineering techniques used to steal money or payment credentials.

AI DETECTED RED FLAGS

- Attempts to obtain the victim's UPI PIN or a similar payment authorization code.
- Fraud through malicious payment links that redirect victims to phishing or payment-approval pages.
- Promises refunds, rewards or cashback to lure the victim into opening a payment link, approving a collect request or entering credentials.
- The caller tricks the victim into approving a UPI collect request or entering a PIN to supposedly receive money.
- Uses QR code or UPI collect request fraud, often claiming it is needed to receive a refund or verify payment.
- Uses refund claims to convince victims to scan QR codes.
- Uses refunds, cashback or rewards to trick victims into approving a request, scanning a QR code or entering sensitive details.
- Victim is asked to approve a UPI collect or payment request, often by claiming it is needed to receive money.
- Victim is asked to scan a QR code to receive money.
- Victim is told to scan a QR code to receive money, but the scan actually authorizes a payment or collect request.
